Davao Medical School Foundation is located in the city of Davao which is approximately 588 miles (964 Km) south-east of Manila and is the largest City in the Island of Mindanao.

Benefits of MBBS in Philippines

Every year, almost 8000 foreign students take admission in Philippines Medical universities and out of which around 50% are Indian students. The standard of education in Philippines universities is well known around the world. Thousands of doctors from these medical universities are sent to various countries like USA and UK every year. There are around 2299 higher educational institutions and 40 medical colleges. The main benefits of pursuing MD degree from Philippines universities are:

1. The Medical universities of Philippines are listed in WHO (World Health Organization) and MCI (Medical Council of India). This makes the students eligible for leading international medical exams such as USMLE and MCI for clinical practice in other countries.
2. The medium of Instruction is English which helps international students to easily adapt and avoids the learning curve of an additional language.
3. The cost of complete MBBS course is quite affordable and there is no donation fee in many Philippines Medical Colleges. Tuition fees range from 15 to 25 Lakhs Indian Rupees based on the ranking of the medical college.
4. The cost of living is very low thus helping the international students to afford the expenses easily.
5. The medical institutes allow students to practically diagnose patients which improve their confidence and provide them with better practical knowledge.

Advantages of Studying MBBS in China

1. Strong economy and stable society

Economically, China is among the strongest countries in the world. The country is not facing any internal security problems and also has an amazing infrastructure.

2. Lots of choice

There are hundreds of medical schools and universities in China offering education to thousands of students, both foreign and local, so plenty of options to choose from. This includes some of the world. Almost all of China's medical schools are registered in the International Medical Education Directory (IMED).

3. Low tuition fees

Tuition fees for medical schools in China are very low.

4. Fast-track qualification

Most universities in China offer their medical degrees as a Bachelor of Medicine, Bachelor of Surgery (MBBS). The MBBS program is a fast-track process to become a doctor. It lasts five years, which means you can become a certified physician way faster than those studying medicine in the US, Canada or Germany, where it takes seven to eight years to completely become a doctor.

5. Learn the world's most-spoken language

Medical courses in most universities are taught in English, but it's also required to study the Chinese language as a separate subject, which is not a bad thing!

6. A huge country to explore

Geographically, China is huge. It is full of natural and artificial wonders, and if you study in China you'll have the opportunity to explore at least some of these. You're probably picturing a university in Beijing or Shanghai, with all those skyscrapers and busy roads, but there's so much more to the country, and it's all well-connected.

LANGUAGE

In China English is an official language and tourism a major industry, speak it, according to Crystal.

CURRENCY

Renminbi

WEATHER

The majority of the world's countries do not feature one climate type because many different weather patterns, landforms, and climate characteristics contribute to a wide-ranging tapestry of nuances. This is especially true in China.

MBBS IN CENTRAL AMERICA

The Caribbean islands are a group of islands on the Caribbean Sea, commonly grouped as West Indies along with few mainland countries like Suriname, Guyana and Belize. The Caribbean is regarded as one of the top tourism destinations on earth with the pristine beaches and natural beauty.

The Caribbean region has in the last 40 years has developed into a medical education hub for international students, especially from USA, Canada, India and European countries, thanks to the American Education system and curriculum strictly followed by the universities, also that have their clinical sites all over the United States. Studying Medicine at the Caribbean is a clear and easiest pathway to continue medical education and practice in USA. Most students studying in the Central American / Caribbean Medical Universities have been successful in the Residency placements and are working in over 45 countries, especially USA, Canada, UK, Australia, New Zealand, etc.

Avalon University School of Medicine

Avalon University School of Medicine (AUSOM) was founded in 2003 and is chartered by the government of Curacao. AUSOM has an academic team and curriculum which focuses on success of its student body. While emphasis is on student academic success, the administration also focuses on students' personal needs to make sure both students and parents are comfortable and at ease.

Caribbean Medical school AUSOM's faculty consists of professors who are qualified doctors with a great experience and knowledge of the basic sciences and medical practice, which makes them an integral part of the success of AUSOM graduates. The island of Curacao is one of the most developed and modern islands in the Caribbean, which allows AUSOM to conduct the medical program in an up-to-date and friendly environment.

As a Caribbean medical school, our goal is to make sure that all students obtain a sufficient level of medical knowledge to understand the basic facts, concepts and principles essential to successful medical practice. Avalon University School of Medicine takes great pride in making sure all students are pointed in the right direction to succeed. With our designed small class sizes being an average of only 30 students per class, this attractive student-to-teacher ratio offers students the experience of individualized attention in our intensive medical school program. Our faculty members are dedicated to providing the leadership needed for a healthy and exciting learning environment. Our goal is for all students to be molded into well-rounded physicians who exhibit the compassion, integrity and honesty essential for medical practice.

Call Now : +91 90329 55688 | Web: www.careerplus.org.in | Mail: info@careerplus.org.in

Columbus Central University School of Medicine

Columbus Central University is one of the best medical schools in the Caribbean, built up by American Physicians and is certified, authorized, and enrolled inside the wonderful Nationality of Belize. We are preparing students for the next level of medical training in ACGME licensed American teaching hospitals by executing a U.S. standard educational programs, utilized as a part of the best North American LCME/AAMC schools of medication focusing Higher Order Thinking Skills (information, understanding, application, examination, combination and assessment) tried in USMLE Step I as opposed to basic remembrance of facts.

At Columbus Central University, our aim is to make a totally new model of medical education, one that will improve the college's capacity to go as a transformational agent in medicinal services. Our unique kind of approach grasps cross-disciplinary teaching modalities, breakthrough technologies, and innovative approaches to propel teaching in both basic science and clinical skills all through the medical school educational programs. Likewise, we wish to develop students' comprehension of academic medicine to better set up tomorrow's doctors and have a sweeping effect on their further profession and career.

Advantages of Studying in Central America

- 1. Less Tuition:** Caribbean medical schools typically cost less than U.S. medical schools (both public and private). Some schools may approach the costs of U.S. medical schools but they are, overall, still less expensive.
- 2. Global Medical Training:** In today's global society, students who are able to have a global medical education have an advantage in residency applications and when they become physicians. Since Caribbean medical schools are affiliated with numerous teaching hospitals, it gives students the opportunity to participate in clinical rotations throughout the United States or Canada. Some schools even offer clinical rotations throughout the globe.
- 3. Clinical Rotation Opportunities:** There are clinical rotation opportunities in the U.S and Canada. In many of the Caribbean schools, the first two years of basic science is done on their campuses overseas, while clinical rotations are done in U.S. hospitals. Though your home school is still overseas, you have the advantage of the same clinical exposure and opportunities as the hospitals' home medical students. Many past students cite this as an advantage in applying to United States and Canada residencies.
- 4. Reputation:** In many countries such as the UK, US and Canada, the reputation of the medical school matters mostly for your own personal satisfaction because wherever you go, you will get an equivalent degree and an equivalent training.
- 5. Less Competitive:** US and Canadian medical schools are too choosy because they can only take a small number of students, and don't admit enough people to fill the demand for doctors in the US. So even if you didn't have the top GPA of your class, or didn't score high enough on the MCAT for Harvard, there's still a good chance you could get into a Caribbean medical school and fulfill your dream of becoming a doctor. It is also important for you to know that 25% of practicing US physicians is from international medical schools.
- 6. Supportive Environment:** Medical school professors in the Caribbean want you to succeed, both for your well-being and for their school's reputation.

Language :- English is the official language and widely spoken here.

Weather :- The Caribbean has a tropical climate so you'll find hot and sunny weather all year round. Most islands have a rainy season, usually from May to October. You'll get higher temperatures, humidity and more rain at this time.
